### Materials Info and Shipping

All images must be high resolution (300 dpi for CMYK and grayscale images and 600 DPI for line art). Place images at 100% to ensure better reproduction. Offset crop and trim marks by 1/8" so that they do not extend into bleed or live area. Line screen: 133. Please follow SWOP standards.

Upload display ads to our secure Web portal at <https://hanleywood.sendmyad.com/>. The portal preflights the ad, giving you instant feedback with possible issues. Once your ad passes preflight and you approve the ad for publication, our production team is automatically notified. New users are instructed on how to set up your own username and password on the portal.

We assume no liability for content errors or color variations between the digital file and the printed image if: (1) a high-end SWOP proof is not provided; (2) the file must be converted to CMYK; or (3) any of the published digital specifications are not met. The advertiser or authorized agency is responsible for providing materials meeting our specs. We are not responsible for making corrections to supplied materials.
